# JAMMIN X2 BUGGY ELECTRIC CONVERSION

JAMMIN PRODUCTS is proud to announce the release of the X2 buggy electric conversion. Following in the footsteps of the nitro X2 buggy, the X2 electric conversion will make you competitive as soon as the tires hit the track. This conversion kit not only comes with the full TEKNO electric conversion, it also includes the new JAMMIN low profile body. The conversion kit is a breeze to install and features the revolutionary TEKNO clutch kit that makes it easier to drive on rough tracks and allows for mounting of a third servo for brake bias adjustment. This kit has the option of running direct drive with out the clutch and third servo(optional pinion gear required). The 1/8th scale X2 electric conversion kit gives you the JAMMIN performance and quality that is world renowned.

- Full TEKNO conversion
- Clutch or direct drive(option)
- Mechanical brake bias, front & rear
- 4mm CNC 7075-T-6 chassis
- Low CG battery tray
- 1 piece motor mount/heatsink
- New narrower ,sleeker body design
- Radio tray with integrated wire guides
