

# JPX.21 PLUS

The new Jammin JPX.21 PLUS uses the latest technology in engine design and materials. This Racing Engine has been thoroughly tested, it's wear characteristics are excellent for longevity and tuning. The crank has been knife edged, balanced and crank timing changed for increased run time along with consistent horsepower through the entire power band for drivability. The JPX.21 PLUS comes with a newly designed head for optimum cooling along with a turbo plug and head button for maximum performance.

**NEW COOLING HOLES**
